I am a senior citizen on a fixed income and would be forced to leave my Province Community if the water rates are increased. When I ask friends living in other Adult Communities their water costs are very much lower. Currently I lesson the gallons used per month to keep costs down and conserve water. If I need to sell my home as many others will have to do the growth in Maricopa will be adversely affected.

I am a resident of the City of Maricopa. I'm 69 yrs old and on a fixed income. I cannot afford an increased rate for water usage. I already conserve water usage and would be adversely affected if I cut back further water usage. Growth within Maricopa will come to a stand still when prospective buyers learn about the high costs for water usage. The financial benefit with the loss of current and new growth will be less than was is in place currently.
